## 3. COMPOSITION/INFORMATION ON INGREDIENTS

None as defined by OSHA Hazard Communication Standard 29 CFR 1910.1200.

## 4. FIRST AID MEASURES

**INHALATION:** If product vapors cause respiratory irritation or distress, move the exposed person to fresh air immediately. If breathing is difficult or irregular, administer oxygen; if respiratory arrest occurs, start artificial respiration by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. If symptoms persist, seek medical attention immediately.

**EYES:** Immediately flush eyes with lukewarm water for 15 - 20 minutes while holding the eyelid(s) open. If contact lens is present, DO NOT delay irrigation or attempt to remove lens. Take care not to rinse contaminated water into the unaffected eye or onto the face. Immediately obtain medical attention.

**SKIN:** Remove contaminated clothing, shoes and leather goods. Quickly and gently blot or wipe away excess chemical. Flush with lukewarm flowing water for 15 minutes. If irritation persists, repeat flushing. If irritation persists, obtain medical advice.

### FLAMMABILITY CLASSIFICATION

Not determined

**EXTINGUISHING MEDIA:** Use foam, dry chemical, carbon dioxide, or water fog.

#### **SPECIAL FIRE AND EXPLOSION HAZARDS**

Closed containers may rupture or explode (due to the build-up of pressure) when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

#### **SPECIAL FIRE FIGHTING PROCEDURES**

Full protective equipment including self-contained breathing apparatus should be used. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat. If possible, firefighters should control runoff water to prevent environmental contamination.

## **6. ACCIDENTAL RELEASE MEASURES**

**STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:** Wear appropriate protective clothing designated in Section 8. Remove all sources of ignition. Ventilate the area.

**SMALL & LARGE SPILLS:** Wipe or scrape up and contain for salvage or disposal. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbent or cleaning materials appropriately, since spontaneous heating may occur. Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases.

## **7. HANDLING AND STORAGE**

**HANDLING PRECAUTIONS:** Wear all appropriate protective equipment as specified in Section 8. Keep containers closed when not in use. Use with adequate ventilation. Do not store below 40 degrees F (4 - 5 degrees C) to prevent freezing and possible rupture of container. Avoid contact with eyes and skin. Avoid breathing vapor. Do not take internally.

**STORAGE CATEGORY:** Not applicable

**STORAGE PRECAUTIONS:** Keep in cool, dry, ventilated storage areas in closed containers. Transfer only to approved containers having correct labeling. Containers that have been opened should be carefully resealed and kept upright to prevent leakage. Keep out of reach of children.

## **8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**OCCUPATIONAL EXPOSURE LIMITS** Data not available.

**ENGINEERING CONTROLS:** Use adequate ventilation. Local exhaust is preferable. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

**PROTECTIVE EQUIPMENT:** Wear protective clothing to prevent repeated or prolonged contact with product.

**RESPIRATORY PROTECTION:** Avoid breathing vapor. Respiratory protection is not needed under ambient conditions with adequate local exhaust. Always use a NIOSH/MESA approved respirator when vapor concentration exceeds applicable concentration limits.

**EYE PROTECTION:** Wear protective goggles or safety glasses with side shields during use. Refer to 29 CFR 1910.133, ANSI Z87.1 or European Standard EN 166.

**HAND PROTECTION:** Neoprene rubber gloves, nitrile gloves or those recommended by glove supplier for protection against materials in Section 3. Gloves should be impermeable. Breakthrough time of selected gloves must be greater than the intended use period.

**WORK/HYGIENIC PRACTICES:** Facilities storing or using this material should be equipped with an eyewash station and safety shower. Practice safe workplace habits. Wash hands thoroughly after use, before eating, drinking or using the lavatory.
